

Kitten TURKEY AND CHICKEN – CCK

KITTEN

Kittens grow quickly, within 6 months they will have reached approximately 75% of their adult body weight and so getting their diet right is vital to help them grow from a kitten into a healthy cat. Our complete kitten recipe is formulated to provide young cats with the balanced nutrition and increased energy content that they require during growth. This includes a higher level of protein, rich in essential amino acids to support healthy muscle growth and added vitamin E to help support the immune system. The smaller kibble size of a kitten recipe also helps to make meal times easily manageable.

Key Ingredients

70% Total Turkey and Chicken

Rich in essential amino acids, vitamins & minerals to support healthy muscle growth and development in kittens.

Minimum 30% Freshly Prepared Deboned Turkey

Responsibly sourced and highly digestible protein, ideal for cats.

Cognitive and visual Development

A source of the Omega3 fatty acids DHA and EPA, crucial in supporting the early stages of brain and eye development.

Healthy Digestion

Added prebiotics to help support a sensitive digestive system whilst kittens mature.

Immune Support

Added vitamin E and taurine to help support developing immune defences.

Healthy Heart

Added Taurine to support normal heart development.

COMPOSITION

70% Turkey & Chicken (including 36% Dried Chicken, 30% Freshly Prepared Deboned Turkey, 4% Turkey Fat), Potato, Peas, Chickpea, Lentils, Hydrolysed Liver Gravy, Omega3 Supplement, Cellulose, Minerals, Fructooligosaccharides (FOS, 480 mg/kg), Mannanooligosaccharides (MOS, 120 mg/kg), Dried Cranberry, Yucca Extract (190 mg/k)
